

If you thought live-action escape rooms were fun, wait until you try our virtual reality escape rooms! We utilize some of the most advanced VR equipment and technology to create a truly immersive and interactive experience. Our games are team-based and free-roam – meaning you and your group can play together in the same space, utterly untethered by wires or cables! Jump, duck, crouch and pass things to each other in a virtual space that maps right onto the physical one. Our games feel so real you won't believe you never left the room. Our VR Escape Rooms are recommended for 12yr and older.
